However, the following informalities must be corrected before this application can be forwarded to the office of publication.

The drawings dated 12/21/2001 are objected because there are 2 figures in the drawings, however, only the second figure is labeled as Figure 1; The first figure does not contain any figure label although the figure appears to be similar to that of the labeled Figure 1. Clarification and appropriate correction is requested.

The specification is objected because the specification does not contain the brief description of the drawings. Note that it is recommended that this 371 filed application should have the specification conformed with the style and format standard employed in an US filed application, such as the use of appropriate headings for each of the embodiments as set forth in the specification, e.g., Background of the invention, Brief description of drawings, Working examples, etc.
